SERVICE WORKSHOP

German Gulf Enterprises (GGE) is a name synonymous with excellence in service and aftersales support. With a rich legacy of supporting industries across the UAE, our Service Workshop / Welding Service Division specializes in delivering comprehensive maintenance, repair, and fabrication services.

Our unwavering commitment to quality, safety, and reliability has established us as the trusted partner for leading global brands such as Putzmeister, DEVELON, Liebherr, ATLAS, GEHL, EP, Mobil, DYNAJET, and many more.

At German Gulf, we take pride in providing

exceptional service through our specialized Service Workshop / Welding Service Division. Designed to meet the diverse needs of industries, our state-of-the-art facility offers end-to-end fabrication, repair, and maintenance solutions.

With a team of highly skilled engineers and technicians, each with over 15 years of experience, we ensure your equipment remains operational and dependable. From routine servicing to complex machinery overhauls, we are equipped to manage every requirement efficiently.

OUR SERVICES

OUR SERVICES

- Field Service
- Engine Overhauling
- Fuel Pump & Injectors Repair
- Batching Plant Installation & Repair
- Welding & Fabrication
- Construction Equipment Repair & Refurbishment
- Paint & Body Shop
- Routine Preventive Maintenance
- Mortar Machines
- Concrete Pump
- Annual Maintenance Contracts
- Electrical Repairs
- Commercial & Passenger Vehicle Services
- Hydraulic Cylinder Fabrications
- Machining Jobs
- Cargo Body Fabrications
- Differential/Axle Overhauling
- Accident Repairs
- Metal Fabrications
- Transmission/Gearbox Overhauling
- Cranes Excavator Repairs & Service
- Seal Fabrication
- Radio Remote Repairs

FIELD SERVICE

Our skilled professionals are available for hire who go above and beyond, handling repairs, installation, and maintenance tasks every day. They also excel in managing teams, assigning tasks, generating reports, and nurturing valuable customer relationships. Trust us to deliver top-notch service that keeps your projects running smoothly.

ENGINE OVERHAULING

Overhauls involve work on the core of your engine the area which isn't touched at standard servicing. It's a complex procedure and can include the installation of new piston rings, bearings, and gaskets plus boring out of the cylinders. Crankshafts and cylinder heads can either be replaced or reconditioned.

FUEL PUMP & INJECTORS REPAIR

At Injection Development, we use modern, efficient, and accurate measurement systems for testing, repairing, and servicing injectors and pumps.

These include traditional, electronic, and common rail systems (including Electronic Unit Injectors).

BATCHING PLANT INSTALLATION & REPAIR

Concrete mixing plants enable concrete to be manufactured economically. We supply our plants as vertical and horizontal versions. Thanks to the modular structure, we can meet individual customer needs in a short space of time.

WELDING & FABRICATION

Our skilled welders and fabricators possess the expertise to handle various welding and fabrication projects. From structural welding to custom fabrication, we ensure high-quality workmanship, adherence to industry standards, and timely completion of your welding and fabrication requirements.

CONSTRUCTION EQUIPMENT REPAIR & REFURBISHMENT

We offer a wide range of construction equipment for various applications in the construction industry.

From excavators and loaders to bulldozers and compactors, our Develon equipment ensures high performance, durability, and efficiency on your construction projects.

PAINT & BODY SHOP

Our state-of-the-art paint and body shop is equipped with advanced tools and technology to provide top-quality painting and denting services for your vehicles and equipment. Our skilled technicians deliver seamless finishes and restore the appearance of your vehicles to their original condition.

ROUTINE PREVENTIVE MAINTENANCE

Regular maintenance is crucial for the optimal performance and longevity of your equipment. Our team of experienced technicians provides comprehensive routine maintenance services to keep your machinery running smoothly and minimize the risk of unexpected breakdowns.

MORTAR MACHINES

Overhauls involve work on the core of your engine – the area which isn't touched at standard servicing. It's a complex procedure and can include the installation of new piston rings, bearings, and gaskets plus boring out of the cylinders. Crankshafts and cylinder heads can either be replaced or reconditioned.

CONCRETE PUMP

Our facility is dedicated to providing maintenance, repairs, and support for concrete pumps and related equipment.

It serves as a hub where concrete pump owners and operators can bring their machinery for routine servicing, inspections, troubleshooting, and repairs.

These service centres are equipped with specialized tools, diagnostic equipment, & knowledgeable technicians who are trained in the intricacies of concrete pumps. Additionally, concrete pump service centres may also offer spare parts, accessories, and technical advice to assist customers in maximizing the lifespan and efficiency of their concrete pumping equipment.

ANNUAL MAINTENANCE CONTRACTS

We offer annual maintenance contracts tailored to your specific needs, providing comprehensive maintenance and support for your equipment throughout the year.

Our proactive approach helps prevent potential issues and ensures maximum uptime for your machinery.

ELECTRICAL REPAIRS

Electrical repairs encompass diagnosing and fixing electrical issues in vehicles or machinery. This can involve troubleshooting faulty wiring, repairing electrical components, or addressing issues related to the vehicle's electrical systems.

COMMERCIAL & PASSENGER VEHICLE SERVICES

From oil changes and brake inspections to engine diagnostics and repairs, our vehicle services cover a wide range of maintenance and repair needs for your vehicles.

Trust our skilled technicians to keep your fleet in excellent condition and ensure the reliability and safety of your vehicles.

HYDRAULIC CYLINDER FABRICATIONS

Hydraulic cylinder fabrications involve manufacturing or repairing hydraulic cylinders used in machinery or vehicles. This can include replacing seals, reconditioning worn-out parts, or manufacturing custom hydraulic cylinders.

MACHINING JOBS

Lathe and machining services involve using precision machinery to shape and cut various materials. This can include turning, milling, drilling, and grinding operations to create or repair specific components or parts.

CARGO BODY FABRICATIONS

Cargo body fabrications involve designing and building custom cargo bodies for vehicles such as trucks or vans.

This service can include creating and installing storage compartments, racks, and other features tailored to meet specific customer needs.

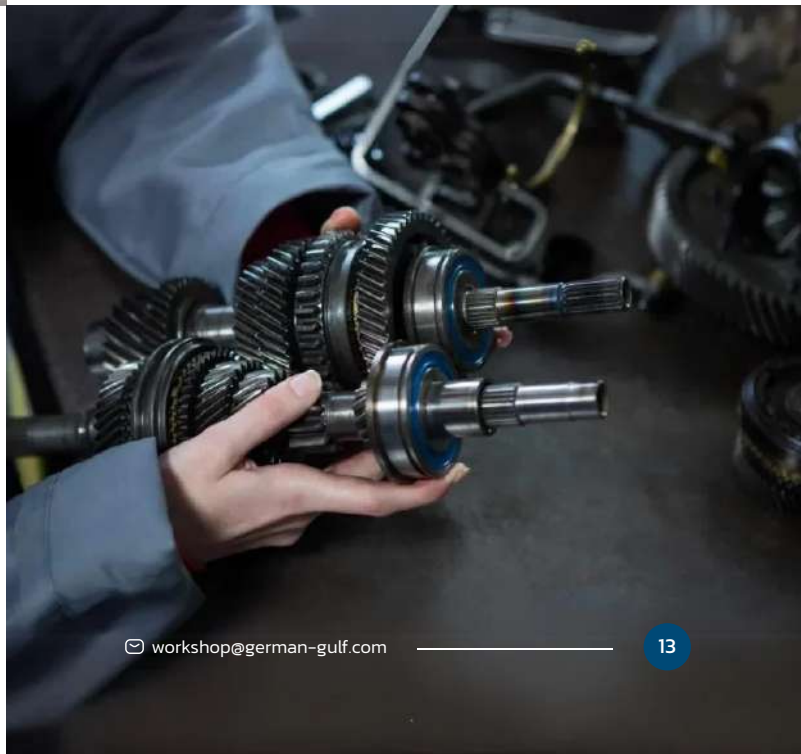

DIFFERENTIAL AXLE OVERHAULING

As an authorized dealer of Putzmeister, we provide reliable and high-quality concrete pumps for your construction needs.

Differential and axle overhauling involves repairing or rebuilding the differential and axle components of a vehicle.

This service includes addressing issues such as noise, vibration, and leakage, and ensuring smooth operation. PS is known for their advanced technology, precision, and durability, ensuring efficient and precise concrete placement on your projects.

ACCIDENT REPAIRS

Accident repairs involve restoring vehicles damaged in accidents.

This service typically includes body repairs, panel replacement, frame alignment, and other necessary repairs to bring the vehicle back to its pre-accident condition.

METAL FABRICATIONS

Metal fabrications involve shaping, cutting, and welding various metal components to create custom parts or structures.

This service can include fabricating brackets, frames, supports, or other metal components used in automotive or industrial applications.

TRANSMISSION GEARBOX OVERHAULING

This involves inspecting, repairing, & rebuilding transmissions and gearboxes.

It includes replacing worn-out components, fixing leaks, and ensuring proper functionality.

HYDRAULIC COMPONENT RESEALING

Hydraulic component resealing is a crucial maintenance procedure that ensures the longevity and efficiency of hydraulic systems. By replacing worn or damaged seals, this process prevents leaks, reduces downtime, and maintains optimal performance, ultimately extending the life of equipment and minimizing costly repairs.

CRANES & EXCAVATOR REPAIRS & SERVICE

German-Gulf Enterprises Ltd specializes in sales and rentals of cranes, both lifting and duty cycle. German-Gulf is the sole distributor of Atlas Cranes and Excavators. Through our esteemed partners, we are also able to supply all types of construction equipment.

RADIO REMOTE REPAIRS

Radio remote repairs involve fixing or servicing remote control systems used in various industries, such as construction, manufacturing, or logistics.

These repairs can include fixing connectivity issues, replacing damaged components, or reprogramming the remote control.

OUR PARTNERS

www.putzmeister.com/web/middle-east/home

A company that has been global leaders in the world of construction and mining since 1958. Putzmeister develops and produces high quality and high reliability machines for pumping, distributing, and placing concrete, mortar, and high-density solids, and for preparing, temporarily storing, processing, and transporting these materials.

LIEBHERR

www.liebherr.com/en

A company that was founded in 1949 and is known for inventing the tower crane. Initially, Liebherr started as a small construction firm but quickly grew to become a reputable manufacturer of construction machinery and other technologically advanced products. Over the years, Liebherr has expanded its product range and established itself as a leading player in the industry.

DEVELON

www.na.develon-ce.com/en

Develon, under HD Hyundai Infracore, delivers reliable solutions through innovation and value-driven partnerships. The brand's slogan, "Powered by Innovation," reflects its commitment to smart technology and leadership in the infrastructure sector. By continuously advancing products and services, Develon aims to be a global leader, transforming challenges into opportunities for customers worldwide.

ATLAS

www.atlasgmbh.com/en

A company that Founded in 1919, ATLAS has always evolved and grown. Always at a healthy pace, ATLAS builds the excavator or loading crane that solves your tasks quickly and economically. Both elements, namely technical excellence, and high economic efficiency, are good foundations for your success.

GEHL

<http://www.gehl.com/en-CA>

Born on American farms in 1859, GEHL builds machines that work as hard as their operators. Trusted worldwide in agriculture, construction, and landscaping, GEHL equipment combines durability, safety, and user-focused design—ensuring every job gets done right, even in the toughest environments.

EP EQUIPMENT

<http://www.ep-equipment.com/>

Established in 2007, EP Equipment specializes in lithium-powered material handling solutions. With full in-house production and a focus on innovation, EP serves warehouses and logistics centers globally—offering smart, efficient, and reliable equipment designed to meet the demands of both occasional and high-frequency operations.

Mobil

www.mobil.com

Mobil, a renowned petroleum brand founded in 1911 as Vacuum Oil Company, merged with Exxon in 1999 to form ExxonMobil. Known for its iconic red Pegasus logo, Mobil emphasizes innovation and global presence. Committed to cleaner technologies, it remains a leader in the industry, catering to consumers worldwide.

DYNAJET

www.dyna-jet.com

All over the world, professionals in all industries rely on the highly efficient high-pressure cleaners and accessories from DYNAJET. Our innovative high-pressure units working at pressures up to 3,000 bar are impressive all round: universal application possibilities, highly economic and efficient, absolutely reliable and uncompromising in their quality.
